LASCIATEVI ISPIRARE DALLE TANTISSIME NOVITÀ E PROPOSTE DI ARREDAMENTO E DALL'OGGETTISTICA INTERAMENTE DEDICATE AL DESIGN DI INTERNI IN STILE VINTAGE: [WALL ART](#)

Alzi la mano chi non ha mai pensato di arredare anche solo un angolo di casa con un *objet trouvé*, espressione francese che indica ciò che si recupera tra mercatini delle pulci e negozi specializzati. Se c'è una cosa che possiamo affermare con assoluta certezza è che lo stile vintage non è mai passato di moda. Soprattutto negli ultimi anni. Tale tendenza ha dominato il palcoscenico non solo della moda ma anche dell'interior design e della musica. Di mobili vintage sono piene le case di designer, creativi e celebrities. Diciamolo subito: il vintage migliore è quello che non vive da solo, ma spicca nel contrasto con il contemporaneo. Lo stile vintage nasce dalla promessa di essere una tendenza sempre attuale, che ci sarà in ogni istante, in continua evoluzione. Gli amanti del vintage vedono nel passato un valore, un'opportunità, una potenzialità senza eguali. Questa tendenza non è per tutti, perché non tutti sanno sognare, sanno interpretare il valore del passato e adattarlo al presente. Nasce per tutti coloro che sanno apprezzare il valore dell'originalità, dell'unicità e della storia.

LET YOURSELF BE INSPIRED BY THE MANY NEWS AND PROPOSALS FOR FURNITURE AND OBJECTS ENTIRELY DEDICATED TO VINTAGE-STYLE INTERIOR DESIGN: [WALL ART](#)

Raise your hand if you have never thought of furnishing even a corner of the house with an *objet trouvé*, a French expression that indicates what you can find in flea markets and specialized shops. If there is one thing that we can say with absolute certainty, it is that the vintage style has never gone out of fashion. Especially in recent years. This trend has dominated the stage not only of fashion, but also of interior design and music. The homes of designers, creatives and celebrities are full of vintage furniture. Let's face it right away: the best vintage is the one that doesn't live alone, but stands out in contrast with the contemporary. The vintage style comes from the promise of being an ever-current trend which will be there in every moment, in continuous evolution. Vintage lovers see in the past a value, an opportunity, an unrivaled potential.

This trend is not for everyone because not everyone knows how to dream, they know how to read the value of the past and adapt it to the present. It was created for all those who know how to appreciate the value of originality, uniqueness and history.
